4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

The work performed by masons is highly diverse. They are involved in most stages of the construction process, including detonation and land work on the construction site, filling in the foundation of structures, supervising concrete casts before concrete is poured, supervision and responsibility for the pouring of concrete and placing of iron reinforcements, preparing concrete surfaces for plastering, plastering and laying tiles both indoors and outdoors and laying floor tiles and hollow blocks, both indoors and outdoors. Masons also prepare and look after insulation under masonry, construct open and closed fireplaces, assess and repair damage to plaster and concrete and perform the breaking down and rebuilding of structures. Authorised to work as masons are those who have earned a journeyman's certificate in masonry, issued by the Minister of Industry and Innovation.

(*) Explanatory note

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.

More information on transparency is available at: www.cedefop.eu.int/transparency © European Communities 2002
